# IN WHICH ROOMS HAVE INJURIES AMONG SENIORS INCREASED THE MOST?

Nearly three quarters of injuries among seniors happen at home. We used data from 2015 to 2019 to find out which rooms have seen the biggest increase in injuries. Our team's where the risk of injury is greatest.

## ▲ 99% Hallway

A shift of home injuries incurred by seniors in 2015 occurred in their **hallway**. Check that your hallway is well lit, free of clutter and install rugs with contrasting edges.

## ▲ 126% Living Room

Living room injuries rose from 8,417 to 19,024 year-on-year. Make sure sofas and chairs are the right height for you to get in and out of easily.

## ▲ 52% Dining Room

Seniors incurred 5,364 injuries in their **dining room** in 2019. Be aware of trip hazards and tuck in trailing wires & cords when sitting in your mealtime is limited.

## ▲ 89% Kitchen

The number of **kitchen** injuries rose by 54% from 59,020 to 90,849 in 2020. Keep frequently-used pots, pans and kitchen utensils in easy-to-reach places.

## ▲ 39% Bathroom

No matter how many **grab** rails in the bathroom or sight, as 48% of home injuries among seniors in 2019 occurred in the **bathroom** – a total of 322,977 injuries.

## ▲ 97% Bedroom

The number of **bedroom** injuries nearly doubled from 37,618 in 2015 to 74,018 in 2020. It's a good idea to have a lamp, torch or light switch within reaching distance of the bed.

## ▲ 26% Closet

Seniors across the U.S. suffered 11,661 injuries in and around their **closets** in 2020. Storing heavy items lower and using a step stool with sturdy, tight shelves can help avoid accidents.

## ▲ 32% Basement

There were 11,861 **basement** injuries among seniors in 2020. Consider installing motion-activated lights that switch/shut off, turn on when you walk past.

## ▲ 82% Deck

10,772 seniors reported **deck**-related injuries throughout 2020. Keeping your **deck** clear of clutter and debris can help prevent slips and falls.

## ▲ 14% Backyard

There were 19,403 injuries among seniors that occurred in their **backyard** in 2020. Keep your backyard clear of debris, such as fallen branches.

## ▲ 7% Pool

There were 4,233 home **pool**-related injuries among seniors in 2020. Make sure to repair uneven pavers, loose tiles and damaged pool decking.

## ▲ 63% Garage

There were 31,981 **garage** injuries to seniors reported in 2020. Adequate lighting and suitable protective wear are essential to avoid slips when working in your garage.

## ▲ 28% Attic

There were 3,001 **attic** injuries among seniors in 2020. Be careful not to trip over wires in your attic or consider using motion-activated lights that plug into electrical outlets.

## ▲ 65% Porch

Seniors incurred 34,980 injuries on their **porches** in 2020. A porch light and anti-slip mat can help keep you safe.

## ▲ 65% Driveway

**Driveway** injuries among seniors rose by 6% to 57,861 in 2020. In the winter, wear your driveway with an ice melt product or sand to make it less slippery.

## ▲ 37% Sheds

Seniors suffered 2,001 injuries in **sheds** in 2020. Keep your shed clean and tidy and put its whereabouts in your diary so you don't avoid tripping over your cat or dog.

## ▲ 8% Garden

19,060 injuries to seniors occurred in the **garden** in 2020. A gentle warm-up and good posture can help reduce injuries when attempting garden work.

Home improvements and behavior changes can make a big difference to household safety for seniors.
